nati in a combination that would event-ually swallow up all other marine interests in the Mississippi between St. Louis New Orleans. It would become such a formidable monoply that local lines from all the ports below Cairo running into the lower tributaries would have to succumb to its power, and either divide profits or get out of its way. Here is the expose: "In times agone we have advocated a unanimity of action among those interested in the St. Louis and southern trade. It was only yesterday that a prominent captain and owner informed us that had boats plying between St. Louis and New adhered to the plan adopted by the Lindell convention last summer, there would have been a saving of from two hundred thousand to three hundred and fifty thousand dollars in the river interests of this city. But a spirit of competition has bled all hands round. The steamboatmen of the past have seen the folly of eating themselves up in a mad contest for supremacy. There is one thing lacking: The game of dog eat dog has not yet finished at Cincinnati. If such a wielder of publie opinion in river matters as Cons. Millar, of the Commercial, would lend his efforts to unite Cincinnati with St. Louis on questions of rate from Carro down, a still further unanimity of action

might follow. 'Cons.' has the ability to
